

GURU RAMDASS COLLEGE OF EDUCATION

WELCOMES YOU

10 Day National Capacity Building Workshop

On

"Professional Skill Development of Trainee Teachers"

Venue: GRDCE Campus

Date: 21-30, June 2022

Timings: 9:50-12:30

Mode: Offline Mode

ABOUT WORKSHOP

All the professional educational settings emphasize the development of a skill hierarchy. Skill development is a process in which existing skills are sharpened and new skills are taught, while existing skills are preserved if not improved. Integrating skill development into teacher education programmes necessitates a broad vision and a holistic strategy to achieve the desired results. It is imperative that present and futuristic skills be integrated, facilitated, upgraded, and enhanced in order to achieve high-quality educational results and professional growth and development for instructors. Teachers must now be familiar with a variety of teaching techniques before entering the classroom with a broad group of students with a variety of requirements.

The Major Concepts like Instructional Planning, Strategies, Objectives, Teaching Learning Necessities, ICT integration need not only a theoretical orientation but a practical experience too. Hence GRDCE is experimenting with Collaborative & Experiential Learning Techniques to handle some Theoretical concepts of Teaching Pedagogies. This will be our earnest effort to provide students with an Activity approach to learn these Concepts in workshop mode.
